Coatings2Go... Achieves ISO 13485 Certification

Carlisle, MA (May 15, 2014)—Coatings2Go, a global leader in the manufacturing of water-based medical coatings, has received ISO (International Organization for Standardization) 13485 certification for worldwide distribution. The company was assessed by the National Standards Authority of Ireland, with U.S. based headquarters in Nashua, NH.

Coatings
2Go™

7 coating solutions

3 available sizes

4, 12, or 32 oz.

Accepted worldwide as the standard that defines quality, ISO 13485 sets out the criteria for quality management systems and provides the necessary framework for improving company efficiency, minimizing risk and maximizing opportunity.

"Achieving ISO 13485 certification is a testament to the hard work and dedication of our team members," said Peg Palmer, president of Coatings2Go. *"Attaining this certification speaks to our continuous effort to increase internal process disciplines, provide first-class customer service and make certain Coatings2Go product medical sourcing remains consistent in quality."*
